That's your entire game. You can farm trading cards if you don't click the crashbox away, but no actually booting the game possible. WTF Steam?. Bought it with a 90% discount so I paid 0.10€. If I'm lucky I will recover some of my money with my trading cards. Ok, Cons and Pros:

Cons:

- 1.6 GB of RAM just from the start.
- Crashes everytime.
- Bad controls.
- No menu to know the keys you have to use (or rebinding).

Pros:

- Trading Cards.
- Brings me back to those 2001 ♥♥♥♥♥♥♥♥ flash games but without annoying ads.
- Gives you a reason to write a review.
- Forces you to think a 4th reason.

So 4 pros, 4 cons, that's quite a balanced game right there!. I had an unexpected day once. When I woke one morning to find a giant buttplug up my ♥♥♥♥♥♥♥♥ and a huge black ♥♥♥♥♥♥♥♥ glued to my forehead.

Also there was what could only be described as a dwarf hooker next to me about to snort a line off my ♥♥♥♥♥♥♥♥

In the corner of the room was an obese naked man with huge feathers sticking out of his ♥♥♥♥♥♥♥♥br>with a very small ♥♥♥♥♥♥♥♥

But worse of all was my PE teacher from high school about to drop his ♥♥♥♥♥♥♥♥ onto the black ♥♥♥♥♥♥♥♥ on my forehead.

This was a very unexpected day and far better than the day in this ♥♥♥♥♥♥♥♥ game.. Wow.... this game really Unexpected That crash yo, Cant even get into the game lol

I keep launch the game over and over again until it reach 5mins playtime so i can leave a review.... dont be like me
